

# Succession Plan

Guided below is a basic succession for rising senior presidents. Feel free to change it up to fit your needs and schedule.

*- end of junior year -*

decide on who your successor will be. you can do this by holding a vote and asking candidates to speak on how they can be a good president.

*- summer before senior year -*

teach them the basics of being a president. Maybe even help them coordinate a dream as a president!

*- fall semester of senior year -*

Give them more responsibility! Let DreamCatchers know who your successor is. Start letting them coordinate events and fundraisers by themselves with assistance from you and talk to current club members on what they want to see from a president

*- spring semester of senior year -*

Continue to do what they did in fall. If you haven't yet, make sure to hold elections for other leadership members (i.e. vice president, secretary) if they are graduating. Now let the new president run the monthly meetings and encourage interaction between the rest of the board and the president!
